PRESS RELEASE

Local builder encourages other businesses to join in helping BHS and BMS in re-establishing their learning environments by contributing to the PTAs.

Shelter Alternatives, Inc. and their subsidiary company, Energy Check, have made donations to the Parent Teacher Associations assist the schoolteachers in moving BMS to the old CMS, and converting the BMS campus to BHS.

The needs are abundant and resources scarce as our community faces inaccessibility of the former high school property. The children of some Shelter Alternatives and Energy Check employees attend both schools. Business owner Ed Tuchler feels that volunteering and making donations during this critical time, in preparation for the incoming students, can show the teachers that the community sympathizes with the challenges the schools face. “Our goal is to help the hardworking educators rise above the current circumstances and face the year ahead with a bounty of community support,” claims Tuchler.

As a builder, Tuchler recognizes the stress that comes from moving even into a welcome new home. Unanticipated needs inevitably arise. Donations can be sent to BMS PTA at 208 College Street, Christiansburg, Virginia 24073, or BHS PTA at 3109 Price’s Fork Road, Blacksburg, VA 24060.
